- Circuit breakers, magnetic starters, big switches and other normal components can be mounted inside. Operating mechanism is available to mount externally to operate the internal components.
- Normal measuring instruments can be mounted inside and can be observed and controled from the flame-proof.

The new BXJ92 Series Explosion proof High Voltage Junction Box is available in two types with rated currents of 400A and 1250A at rated voltages of Max 24kV AC and 35kV AC respectively. We offer bespoke, custom-made terminal boxes and terminal box combinations, as well as standard products with short delivery times. Our products are certified for installation technologies all over the.

Internal Structure: This DC distribution panel, tailored for State Grid communication sites, uses industrial-grade components from CHINT. Its main circuit is equipped with the NM8DC-250B DC circuit breaker, which is compatible with 1000V DC systems and provides dual protection against overloads and.
