

4-core optical cable 10 square millimeters

Overview

4-core, 10 mm² SWA armoured cable with XLPE insulation and Low Smoke Zero Halogen (LSZH) sheath. Produced to BS 6724, the cable is particularly robust and well suited to areas at risk of mechanical damage, including industrial wiring and mains distribution applications where thick black smoke and. 10mm 4 Core Cable is used to transmit and distribute power in power transmission and distribution system of 1kV or lower. The cable is constructed using stranded copper cores, PVC bedding and a galvanised steel wire armour protecting the cores. This cable is perfect for. 4 Core Optical Fiber Cable Specification Optical Fiber Cable 4 Core Key Features ● LC to LC or SC to SC ● Single-mode /multimode for option ● OM3 for multimode ● Optical Fiber 4 Cores Inside ● Compatible with all standard fibre optic equipment and connectors ● Stainless Steel sheathed and metal. 10mm x 4 Core H07RN-F Cable is a type of rubber flexible cable that is primarily used in harsh environments. The size 10mm refers to the cross-sectional diameter of the cores so the overall diameter is 21.
