

Belgian Maintenance Industrial Switch 100G

Overview

The DIS-100G Series Industrial Gigabit Unmanaged Switches are designed specifically to withstand wide temperature range, vibrations and shock. FS 100G Ethernet Switches with high speed and port density give you cost-effective options to incrementally upgrade and have flexible bandwidth across the existing infrastructure in enterprise campus network. The DIS-100G-10 features two SFP ports that enable flexible, long-distance fiber connections, perfect for extending your network across remote sites or between buildings. Fiber optic cabling goes beyond the distance limitations of traditional Ethernet, offering high bandwidth and strong resistance. An ultra-fast enterprise switch with extra processing power due to the. If the equipment is used in a manner not specified by the manufacturer, the protection provided by the. The DIS-100G-5SW reliably forwards Ethernet frames. Officially Certified Certifications for vibration, shock, free-fall, NEMA-TS2 Section 2, and.
