

Distribution box construction site three-stage distribution box

Overview

Connects to end-use equipment via switch boxes, forming a three-tier power distribution system. Residual current devices (RCDs) at both the tertiary (equipment-level) and secondary (zone-level) stages. Ensures safe disconnection in case of faults or leakage currents. The panels are made in a sturdy and handy two-component technopolymer cabinet with a fire-resistant backrest, which allows them to be stored and reused in. At KDM Hire, we offer a comprehensive range of distribution boxes designed to ensure efficient and safe power management for your projects. Whether you're working on a construction site, hosting a large event, or operating in an industrial setting, our power distribution boxes provide the perfect. Founded in 1995, and re-organised in 2009, Dongguan Aosen Electrical Equipment Co. is a Hi-Tech enterprise headquartered in Dongguan City, Guangdong Province, mainland China, which dedicates itself in the design, manufacturing and distribution of Low Voltage Switchgears including XGN15-12. BOSECKER construction site power distributors are designed and manufactured in accordance with the manufacturer standard IEC 61439 and user standard IEC 60364. The robust sheet steel housing has been.
