

Dual-port fiber optic angled panel

Overview

A range of 19 inch rack termination panels to accommodate opticalCON, or combinations of opticalCON, SC, ST, E2000 and LC fibre connectors. All feature angled front panels to relieve strain on connected fibre cables. Optimize data center efficiency with our fiber adapter panel. With a range of connector options, enable efficient deployment and future modifications of your network. Four sizes of interchangeable Propel fiber. The OPT-X™ UHDX high-density 1RU Angled Panel provides an inter-connect or cross-connect between backbone horizontal cable and active equipment while minimizing rack space in a frame or cabinet. The panel allows for easy plug-and-play of pre-terminated solutions and open access to patch cords. Cisco is introducing a family of fiber management solutions with a debut of SMF and MMF patch panels. The Cisco® solution of panel and cable assemblies offers versatile solution for any breakout.
