

Dx optical cable

Overview

The OCC DX006DALT9QR DX Series is a versatile 6-fiber indoor/outdoor optic cable designed for reliable performance. Constructed with premium materials, it features a durable PVC blue jacket suitable for riser applications. Outdoor distribution cable for duct or aerial lash installations along utility poles for cable television, telecom or other outside plant campus backbone applications. Please make a selection above to download your spec sheet. This cable meets UL standards for safe vertical runs in building shafts. Side-by-side view of simplex and duplex fiber patch cords showing core and channel differences. Side-by-side view of simplex and duplex fiber patch cords showing core and channel differences. Simplex and duplex cables are the two primary structures used in fiber optic patch cords and pigtails. Their. Optical Cable Corporation's Indoor/Outdoor tightbuffered fiber optic cables meet the functional requirements of the following standards: UL 1651 UL 1666 GR-409-CORE ICEA-S-104-696 ICEA-S-83-596 TIA-568 TIA-598 UL-listed type OFNR in accordance with NEC sections 770-179 (B) and 770-154 (B) for use. Optical Cable Corporation's Indoor/Outdoor tight-buffered fiber optic cables meet the functional requirements of the following standards: UL-listed type OFNR in accordance with NEC sections 770-179 (B) and 770-154 (B) for use in vertical runs in building riser shafts or from floor to floor. Meets. DX-Series Distribution - Arctic Fox[®] and Arctic Fox[®] Plus Cables Ideal for extreme low-temperature where crush due to ice and jacket flexibility are a concern, while maintaining excellent attenuation Flexible to -60°C; *Meets or exceeds the functional requirements of ANSI/ICEA and 87-640-1999.
