

# Fiber Optic Swiss Branch

## Overview

FiberOptic is a Swiss fibre technology manufacturer, based in Spreitenbach near Zürich. We specialise in the manufacturing of custom and standard solutions for light guides with a variety of fibres. Its growth in Switzerland is bolstered by its foreign sister. Switzerland requires a nationwide FTTH network to meet rising bandwidth needs and remain a highly attractive business location in a competitive international environment. Each customer's individual requirements determine how we develop technically flawless solutions for. Collaboration with local energy suppliers and joint venture Swiss Fibre Net AG enable Sunrise to offer you as a user faster and more efficient fiber optic coverage throughout Switzerland. SFN is a network consortium consisting of numerous utility providers which have constructed local fibre networks, offers service providers who do not have their own access network (e. As an expert partner, it combines fragmented, local.
