

How long is the warranty period for electrical wires and distribution boxes

Overview

In the UK work should be guaranteed for six years from the date of delivery or installation (this is five years from the initial discovery of a fault in Scotland). If something fails before this period then you should go back to the electrician who carried it out. This guide gives you a clear, up-to-date overview for 2025: who the regs apply to, what they cover (and don't), how they link to Building Regulations and the Electricity at Work Regulations, the current 18th Edition with recent changes, and the essentials on RCDs, AFDDs, SPDs and bonding. If they will not fix the problem. ABB is a global technology leader in electrification and automation, enabling a more sustainable and resource-efficient future. By connecting its engineering and digitalization expertise, ABB helps industries run at high performance, while becoming more efficient, productive and sustainable so they. Allation e. electrical a two year manufacturer's warranty. However if this is proven after their warranty has lapsed, the electrical contractor would. Eaton warrants to the end user of the original installation location ("You" or "User") that new wiring devices manufactured or distributed by Eaton's Residential Wiring Devices Division ("Products") and purchased from Eaton, an authorized distributor or authorized retailer shall, for a period of. EU law also stipulates that you must give the consumer a minimum 2-year guarantee (legal guarantee) as a protection against faulty goods, or goods that don't look or work as advertised.
