

# How to sell red copper optical cables

## Overview

Selling them to a scrap metal recycling centre is a quick and easy way to make money. Copper wires are key constituents of cabling, and non-ferrous metals like copper are always in high demand. We do NOT take FIBRE OPTIC cables. Our customers include, Tradesmen, Skip yards, Waste transfer stations, Scrap yards and Manufacturers. We handle the following grades of Copper Cable: We aim to pay the best prices on cable while ensuring it is recycled responsibly. We do this by granulating down the cable. The Waste Cable Company offer electrical companies an eco-friendly solution for disposing of your scrap cable, whilst providing you with an income at competitive rates. We want to make this partnership as easy as possible for you, by providing a container for storage at sizes to suit all customer. Effective copper scrap collection relies on precise grading methodologies: The UK's copper scrap collection infrastructure processes approximately 130,000 tonnes annually through: Copper scrap collection represents a sophisticated ecosystem integrating environmental consciousness with economic. With the UK's largest cable granulation facility, we handle every size of job and any cable, from Drop Wire to Co-Axial. Operating to the very highest standards, our facility has the ISO 14001 certification for environmental management and the ISO 9001 certification for quality management.
