

# Huawei Optical Module Field

## Overview

In the AI era, Huawei provides a full range of GE to 800GE optical modules, featuring three major capabilities: Spanning (ultra-long transmission), Stable (ultra-high reliability), and Secure (ultra-solid security). Huawei is one of the world's leading ICT infrastructure and smart device providers, covering telecommunications equipment, enterprise networking solutions, and consumer electronics. Therefore, eSFP is also called SFP sometimes. Huawei's main business scope is switching. This document describes what an optical module is and FAQs, including the fundamentals, appearance and structure, key performance counters, common types, and naming conventions of optical modules, causes of optical module failures and corresponding protection measures, and types of optical modules supported by.
