

Is fiber optic transmission to Tanzania possible

Overview

On July 18, 2025, Tanzania and Kenya officially launched a cross-border fiber optic connection linking Dar es Salaam and Mombasa. The joint project marks a major step toward strengthening regional connectivity and building a more integrated digital market across East Africa. The Tanzania Telecommunications Corporation (TTCL) plans to connect the last 33 districts to the National ICT Broadband Backbone (NICTBB) cable in 2024. This announcement was made on 18 th September 2024 by TTCL's Director of Engineering, Engineer Cecil Francis at the Connect 2 Connect Conference. Tanzania and Kenya have officially inaugurated the redundancy route of the National Optic Fibre Cable network at the Horohoro border post, marking a significant advancement in enhancing digital connectivity and promoting regional integration in East Africa. For Tanzania, which currently.
