

# Login to HP Fiber Optic Switch

## Overview

To access the console of an HP Switch model 1910 or 1920, you will need to select the Serial Connection category and use the following options: If COM1 does not work you will need to try to use COM2, COM3, COM4 or the next. On the prompt screen, enter the administrative login . Access the HPE Networking Support Portal for support, troubleshooting, asset management, and the latest software updates. You are viewing the most relevant and current results for this product. Did you find what you need?

Was it easy to find?
