

Moxa single-mode fiber

Overview

The MOXA SFP-1GLXLC is a high-quality single-mode SFP optical port module designed to enable long-distance communication across industrial networks. Note: When connecting a single-mode fiber transceiver, we recommend using an attenuator to prevent damage. The IMC-101-S-SC industrial media converters provide industrial-grade media conversion between 10/100BaseT (X) and 100BaseFX (SC/ST connectors). The IMC-101 converters' reliable industrial design is excellent for keeping your industrial automation applications running continuously, and each IMC-101. Our Compatible Moxa SFP-1G10BLC SFP transceiver is based on our BIDI-1. 25G-SFP-10-BD product, which has the same parameters and is manufactured in accordance with the same industry standards as its OEM counterpart.
