Growing your network shouldn't come with a warehouse of unusable spare parts. Worldwide Supply is available to buy SFP transceivers and equipment so you can monetize parts that no longer benefit your network. Sell SFP transceivers and receive cash or start a trade-in process for other equipment your expanding network demands. The small form-factor pluggable (SFP) is a compact, hot-pluggable transceiver used for both telecommunication and data communications applications. The form factor and electrical interface are specified by a multi-source agreement (MSA). It interfaces a network device mother board to a fiber optic or copper networking cable. SFP transceivers are de. New and used SFP transceivers come in a variety of form factors based on required optical reach. No matter if your network needs the SX 850nm for distances up to 550m or the EZX's reach of 120km, Worldwide Supply can help you determine the right SFP transceivers to buy. Don't forget to ask about specialized SFP options such as the 1000BASE-T that c.
