

# Plastic optical cable tagging

## Overview

These durable plastic tags are used to label individual wire, or cable bundles. They come in two sizes with multiple colors. Customised cable and single core markings from LAPP are delivered ready for installation in accordance with your specifications and reduce installation time to a minimum. Markers can be mounted in any direction, either vertically, horizontally, as a wrap-around identification plate or as a flag for the best visual. Fiber Optic Cable Tags are the perfect choice for marking your ground level and underground cables. Sold in package of 50 (nylon ties sold separately). \* Not all product variations are available online. Online shipping rates and pricing may differ. Indoor & outdoor fiber cable high visibility markers, id labels, printers, warning signs & posts, cable id sleeves and more for fiber optic applications.
