

Price of converting a distribution box into a storage box

Overview

Thinking about turning a shipping container into a livable room?

The total conversion cost for a 20ft container typically runs between \$10,000 and \$28,000 — significantly less than traditional construction. Below, we break down every expense line by line so you know exactly where. At Ingenious we can transform containers into a variety of solutions including power sub stations for use in mining, portable mapping and plotting stations for emergency services to use in natural disasters or container homes. No matter how big or small your project, we have the skills and. Container conversions cover anything from a having a lock box fitted, a new door or ply lining, to a full scale repurposing into an office, garage, pop-up food stall, and everything in between. A personnel door was installed at the end opposite the existing double.
