

Professional custom-made optical cables of all types

Overview

Use our interactive configurator to choose fiber type, length, jacket, and connector style. We've delivered custom fiber optic cables to major players in aerospace, defense, medical. Our fiber optic cables are durable, robust and manufactured to the highest quality standards in Germany. The foundation of every first-class fiber optic solution is the choice of the right material. We offer a broad range of fiber types: fused silica (Silica/Silica) for laser and UV applications. Thorlabs stocks the largest selection of single mode and multimode optical fibers in the photonics industry. If our selection of stocked patch cables does not meet your needs, we also offer custom patch cable services. For common applications, a 2-metre length is sufficient. For this reason, it is our standard fibre. traditional optical fiber with a total internal. Linden Photonics designs and manufactures fiber optic cable solutions for applications where standard commercial cables may not provide the required strength, durability, size, flexibility, or environmental protection.
