

Santop Network Cabling Prices

Overview

Professional network cabling in 2026 typically costs \$150-\$250 per commercial Cat6 drop, \$200-\$350+ per harder Cat6A commercial drop, and \$200-\$400 for isolated finished-wall additions where minimum service-call labor dominates. Open-wall pre-wire lowers the per-drop cost. Then try out our simple Structured Cabling Cost Calculator! Just by answering a few simple questions, our structured cabling cost estimate tool can provide you with a rough estimate of how much your structured cabling job will cost*. What type of cable (s) do you need?

If you're not sure, check out. Leon Tech Group provides a full structured cabling service in the Greater London. This process can include: The price of a network point includes all labour and materials: up to 50 meters of cable per run, RJ45 module, face-plate, back box, labelling and Fluke testing. In this article, we will explore. This guide breaks down the actual costs per linear foot, device, and port—taking into account real-world pricing from both residential and commercial projects. Fiber cabling, such as OM3, OM4, or OS2, is common in backbone and high-bandwidth applications. Projects also require patch panels, jacks, racks, ladder tray, cable management, and labeling.
