

Splitter LOS indicator light is on

Overview

The quickest and easiest way to fix the LOS red light problem is to restart your modem or router (often called a “power cycle”). When it's green and steady, everything is fine. Here's what each color and pattern means: ORANGE (solid): Secondary Error - Overcurrent. This guide explains the likely causes, the checks you can do at home, and when the issue needs technician support. Existing Krishii Fiber customers can share their registered mobile number, area and a. A LOS red light in your router or modem means that there is a disruption in the fiber optic connection from your Internet service provider (ISP), hence a “loss of signal” (LOS). ”. It's the ONT if it's the LOS (loss of signal) light that is lit Hub is orange light TBH, the LOS light being lit means the router lights are irrelevant, they must be in a fault status because the underlying network is in a fault condition. as you are posting on BT Consumer forum, presumably BT.
