

What are the accessories for cable tray support arms

Overview

In addition to the covers, optional accessories in various materials and coatings are available to supplement the cable support system, e. gutter connectors, connecting plates, separating strips and protective rings. Catalogue for cable trays, mesh cable trays, cable ladders, wide-span systems. Cable trays are indispensable components in modern construction and industrial environments, providing a structured and efficient way to manage and support electrical cables. They are not intended to be used as ladders, walk ways or support for people as this can cause personal injury and also damage the system and any. A strong Cable Management system is only as good as the support behind it, and Channel Support Systems and Cantilever Arms provide the stability you need to keep everything securely in place.
