

Wiring of 24-position distribution box

Overview

This publication shows how to wire and install the 4010-9825 24V Distribution Block into a 4010 Fire Alarm Control Panel (FACP). Refer to the 842-058 Field Wiring Diagram for additional wiring information. Whether you're an electrician or a DIY enthusiast, this guide will help you understand the basics of home electrical distribution. The MDB-M24 allows the connection, through patch panels or directly by splices, between the optical fibres feeding the MDU, and the optical fibres from the cables coming from the building network. This article details the process of installing them, which helps you comprehend distribution boxes. Connection method: Each switch takes a wire from the incoming point and connects it to the incoming end of the switch, or uses parallel connection to reduce the difficulty of wiring.
